Step out dry. Every time.

The Tornado Body Dryer is a full-length, in-shower drying system that lets you dry completely without towels, and without stepping out of your warm enclosure onto a wet, slippery floor. A full-height air tube lined with precision-engineered air jets propels swirls of gentle, warm air around the whole body, drying you evenly from head to toe in around three minutes.

How it works

The unit fits neatly into the corner of a shower cubicle or wet room. A quarter-moon pod at the top houses the motor and heater; the tapered air tube below runs the full height of the enclosure. A wall-mounted pneumatic switch — no electrics at the point of touch — gives two speeds: press once for moderate, again for high, and again to switch off. Recirculated air is warmed to a nominal 100°F (38°C), so the experience is closer to a spa than a hand dryer.

Who it's for

Anyone who finds towel-drying difficult, painful or unsafe. The Tornado is life-changing for people with limited mobility, arthritis, Parkinson's, multiple sclerosis, stroke recovery, ALS and a wide range of physical disabilities — and for carers who help them. It is equally at home in a luxury master bath, and can be used by children aged 8+ under supervision. Wheelchair users can dry seated.

Gentle on skin

Warm-air drying is significantly kinder than towelling for sensitive skin, eczema, psoriasis and post-surgical or fragile skin. Nothing rubs, nothing snags, and there is no damp towel to harbour bacteria.

Why customers choose Tornado

- **Dry in about 3 minutes.** Two speeds, warm recirculated air, whole body.
- **Safer bathing.** No stepping out wet, no one-handed towelling while gripping a grab rail.
- **Independence and dignity.** Dry yourself, seated or standing, without help.
- **No towels, no laundry.** Cuts towel purchase, washing and drying costs — a real saving for care homes, spas, gyms and hotels.
- **Simple, safe control.** Pneumatic wall switch — nothing electrical at hand height in the wet zone.
- **Built to last.** Injection-moulded ABS casing, IPX4 splash-resistant, 2-year warranty.
- **Your colour.** White as standard, four premium finishes, or any RAL or car colour.

Model TORNADO1

IN ONE LINE, FOR YOUR ELECTRICIAN

Dedicated 240V, 20-amp double-pole branch circuit for a 2.9 kW hardwired appliance, with an accessible means of disconnect — the same hookup as a tankless water heater.

Electrical

Supply	240V AC, single phase, 60Hz
Rated load	2.9 kW · 12.8 A
Branch circuit	Dedicated 240V, 20 A double-pole breaker (2-pole, common trip)
Connection	Hardwired with accessible means of disconnect. Not for a standard 120V receptacle.
Cable	1 m (39 in) of wiring exits the top cap of the pod
GFCI / location	Per NEC and local code for bathroom / wet-area installation
Moisture rating	IPX4 splash-resistant — suitable for shower and wet-room installation
Compliance	Installation by a licensed electrician to NEC and state/local codes; permit and inspection may be required

Operation

Controls	Wall-mounted pneumatic remote switch (PVC hose to pod nozzle)
Speeds	2 — press once: moderate · again: high · again: off
Output temperature	100°F (38°C) nominal; recirculated air 5–7°F above ambient
Drying time	Approx. 3 minutes

Physical & mounting

Overall height	80.7 in (205 cm), bottom cap to top of pod
Pod footprint	10.8 in W × 10.4 in D (27.5 × 26.5 cm) — quarter-moon section, corner fit
Air tube	Tapered; 4 in at its widest point
Unit weight	9.2 lb (4.2 kg)
Wall bracket height	78 in (198 cm) from base to bracket centre hole
Corner offset	Bracket fixed 5.3 in (13.5 cm) from the corner
Leg adjustment	Bottom leg may be shortened by up to 17.3 in (44 cm); never cut across the air jets
Fasteners	Non-ferrous (corrosion-resistant) screws only
Sealing	Bead of heat-resistant silicone at the collar before fixing the leg
Min. enclosure	36 × 36 in recommended for comfortable use
Casing	Injection-moulded ABS

Finishes & shipping

Standard	White
Premium finishes	Matte Black, Brushed Nickel, Biscuit, Brushed Gold — 2K automotive paint and clear coat
Custom	Any RAL or car-manufacturer colour
Carton	38 × 15 × 9 in · shipping weight 18 lb
Delivery	Free to USA and Canada; import duties, taxes and brokerage included
Warranty	2 years

Government and institutional purchasers. Listed on the AbleData database as Assistive Technology. Tornado Body Dryer, LLC is registered in SAM.gov — CAGE Code 6LF48. Made in Britain.

APPLICATIONS

One dryer. Three markets.

Home & accessible living

For anyone living with reduced mobility, balance or grip — or simply wanting the most comfortable finish to a shower. Restores independence, reduces fall risk and takes the strain off family carers. Popular with veterans and families adapting a bathroom after injury or diagnosis.

Care homes & assisted living

Promotes resident dignity and independence, reduces staff time on drying and transfers, and removes the ongoing cost of laundering towels. Simple two-speed control that staff and residents pick up in minutes.

Spas, hotels, gyms & salons

A genuine luxury touch for guests and members, with a hard commercial payback: fewer towels bought, washed and dried, and faster turnaround in tanning and treatment rooms. Available in finishes to match any fit-out.

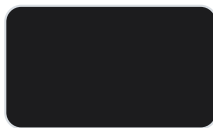

FINISHES

Your bathroom, your colour

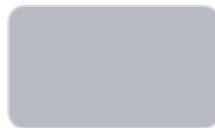

White as standard. Four premium finishes hand-painted by an automotive body shop in heat- and water-resistant 2K paint with clear coat — or specify any RAL or car-manufacturer colour. Premium and custom finishes add approximately 7 days to lead time.

White (standard)

Matte Black

Brushed Nickel

Biscuit

Brushed Gold

Custom colour
